

in regards to the attempt by national banks to over ride indiana's telephne privacy laws, i want to register my concern that large [i.e."faceless"] corporations are not to be allowed to ride rough shod over the general public. Like you, i already get too much unsolicited mail from the various credit card and national banking concerns; i don't need phone calls. indiana has done a great job of protecting it's citizens so far,let's help them keep up the good work.
